In 2015, by switching to cleaner, alternative fuels and implementing fleet efficiencies, our stakeholders:

• Displaced over 19 million gallons of petroleum in our region.
• Prevented more than 96,000 tons of greenhouse gas pollution. That’s the equivalent of removing 20,000 cars from the road.
Sustainable Business is Smart Business

Aligning with Clean Cities demonstrates your organization’s support for a clean transportation economy.

Join us and discover the benefits of membership today:

CONSULTATION
Drawing on our industry expertise, we can help you evaluate the most cost-effective and feasible alternative fuels and technologies for your fleet.

CONNECTIONS
We bring our members together to cultivate new partnerships, share best practices, and collaborate on innovative projects.

EDUCATION
Through events, workshops, webinars and technical trainings, we connect our members with industry experts to learn about emerging issues.

INFORMATION
We produce new resources each year to keep our members apprised of what’s happening in our industry.

INFLUENCE
We channel the collective voice of our members and advocate for state and federal policies that support our region’s efforts to expand alternative fuel use.

PROMOTION
Have a success story or upcoming event? We can share your clean fuel news through our website, social media, case studies, and newsletters.

Taking The Lead

Western Washington Clean Cities is consistently recognized as one of the most progressive and innovative coalitions in the country.

Here’s what our members say about us:

“We have used our local Clean Cities coalition as an invaluable resource for information regarding clean energy technology that can be applied to our delivery fleet. Their staff is readily available to help educate us about options to lower our vehicle emissions and reduce our dependency on fossil fuels.”

Jim Florio, CEO
Click Wholesale Distributing, Member Since 2014

“Participation in the coalition is in the best interest of every forward-thinking fleet manager in Western Washington: It is where you meet the right people, get the best advice and find the available help for a progressive fleet.”

Matt Stewart, Fleet Services Manager
Jefferson County, Member Since 2014

“As a Clean Cities member, we are part of a community dedicated to reducing the carbon footprint of fleets across the Puget Sound region. Our collaboration on community outreach events and legislative efforts has resulted in many valuable connections.”

Christina Suarez, Autogas Fleet Specialist
Blue Star Gas, Member Since 2011
Many Roads, One Destination

Investing in alternative fuels and advanced vehicle technologies like electricity, biofuels, natural gas and propane autogas not only protects the environment and supports our regional economy, but can also deliver a greener bottom line for public and private fleets alike.
